

# Global Commons Rising

Space

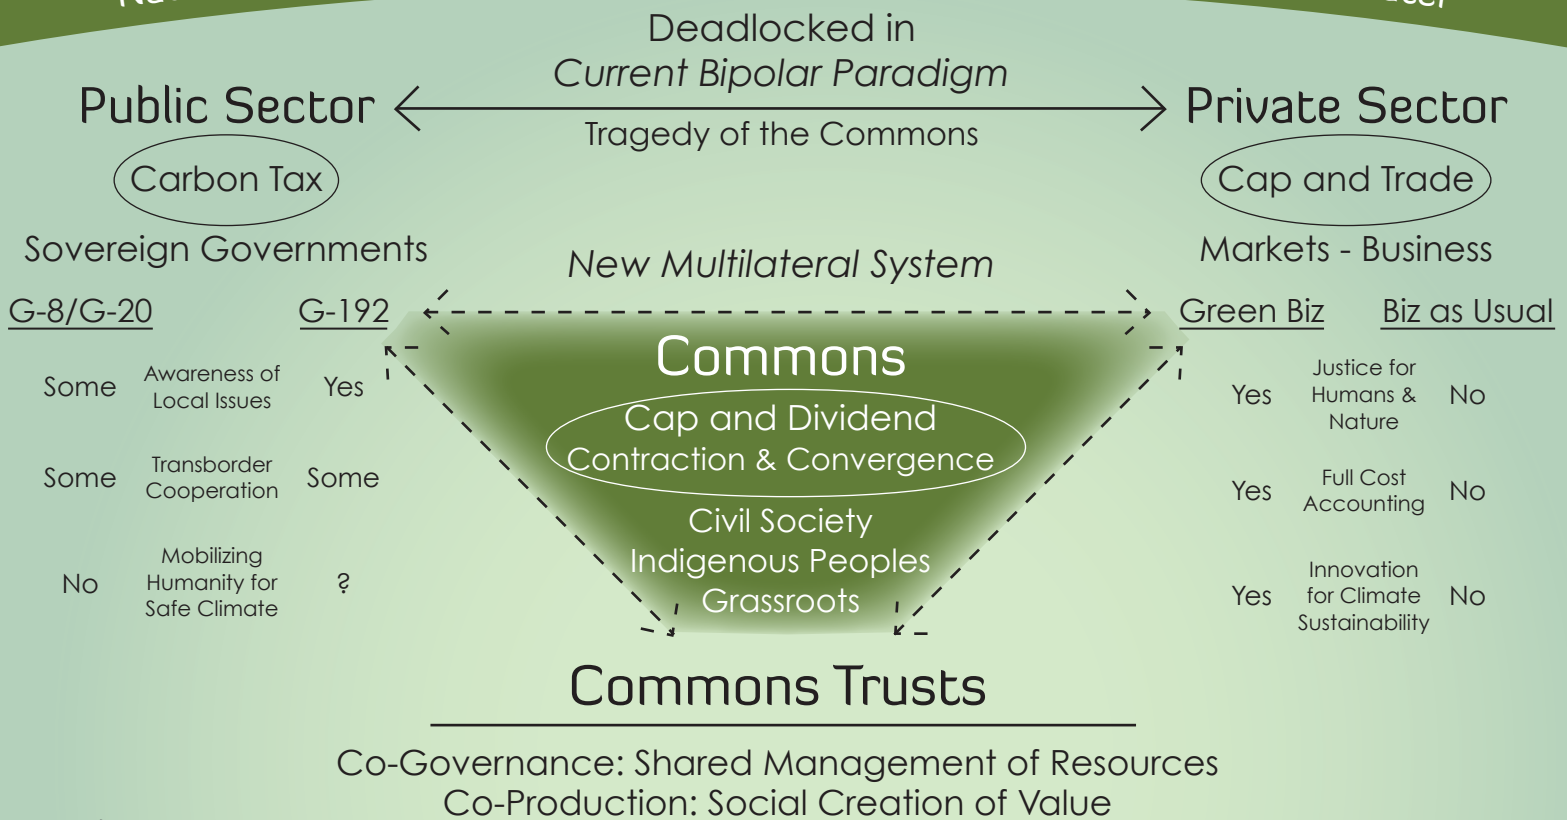

Nuclear Radiation - Space Debris - Spectrum - Carbon Emissions - Global Warming

## Current Debt-Based Money System

- Banks Have Power of Money Creation
- Interest Rates Drive Unsustainable Growth of 3-5% GDP
- Earth and Humanity Bear More Debt
- Through Overproduction/Consumption, Carbon Emissions Rise
- Funds for Development and Sustainability are Limited

Atmosphere

Natural Resources - Genetic Lifeforms - Cultural Heritage - Food and Water

Earth

Green Technology - Common Knowledge & Wisdom - Free Culture - Open Access

## New Equity-Based Money System

- Sharing Excess Resources, Generating Trust, Stability
- Reserve Assets Give Value to Currency
- Just Access to Credit for Development
- Common Wealth Preserved for Future Generations
- Tied to Sustainability and Quality of Life
- Co-Governance and Co-Production Generate New World Paradigm
