

The Reality of Abundance – California, August 2013

Benjamin von Mendelssohn, next generation community leader of Tamera Healing Biotope in Portugal, on tour in California throughout the month of August.

More information: www.tamera.org

„Water, Food, Energy and Community are freely available to everyone, if we no longer follow the laws of capitalism, but the logic of life.“

“There can be no peace on Earth as long as there is war in love.”

Benjamin travels with a vision that we are meant to live in abundance, everywhere on this Earth: from Africa to Australia, from Istanbul to San Francisco, from the highlands of the Andes to the delta of the Nile. The message is simple: We can leave the illusion of scarcity and realize that we live on a planet of abundance. We can experience this abundance everywhere when we start to restore the healthy water cycle. Within a short time span nature grants us once again all we need to live: good food, fresh water and sufficient energy.

We give this healing work on the outside a stable foundation, when we learn to create functioning communities on the base of truth, mutual support and common care for this planet. In these communities we find the human warmth and safety which we need to live, and an abundance of emotional contact, Eros and art.

Such places are acupuncture points for peace, birthing places for the new Earth – Terra Nova.

They can – and need to! – emerge everywhere. This is not just a dream, the necessary knowledge exists. Let us speak how to make it a reality. And let us look how we can fund the first prototypes.

Existing itinery for August:

4th in Santa Cruz: evening with focus on 'Healing Love' and creating community, 7pm-9:30pm, Quaker Meetinghouse, 225 Rooney St
Suggested Donation \$10-20

contact: Magalie Bonneau-Marcil, mag.marcil@gmail.com
