

INVITATION: CHALLENGE EVENT SEPTEMBER 25TH

Our Oceans Challenge is a global acceleration platform to kick-start new ocean ventures. During the first phase, innovative solutions for clean and healthy oceans were shared and enriched by an online community. The results of this first phase will be brought into the business community by offering the possibility to network, learn and cooperate during the **Challenge Event on September 25th**.

During the Challenge Event entrepreneurs, experts and business professionals are brought together around ocean and marine related innovations. **Learn everything about the latest innovations, business opportunities our oceans have to offer and meet relevant stakeholders to make them happen.**

If you are working in the offshore or ocean related industries: don't miss this event! The day will be finalized by presenting the final cohort of ocean entrepreneurs who will receive business development during the next phase.

Program

13.00	Marketplace for cohort of selected entrepreneurs
14.00	Welcome and keynote speaker (Reinier Mommaal van Dyecoo)
