Introduction

With over 40 years of foresight, insight and integrity in our leadership, Ethical Markets Media, LLC (USA and Brazil), a Certified B Corporation, is a micro-multinational social enterprise with the mission to reform markets and metrics by promulgating standards while helping accelerate and track the transition to the green economy worldwide. Programs include the [Green Transition Scoreboard®](#), [Principles of Ethical Biomimicry Finance®](#), [Transforming Finance TV Series](#) and reports, articles, newsletters and analyses by Hazel Henderson, founder, president and editor-in-chief, on [EthicalMarkets.com](#).

In an ongoing effort to provide the most relevant information needed to raise global standards and foster the green economy, this directory lists businesses and organizations directly involved with green investing, whether using SRI, ESG, triple bottom line, green, ethical, impact or circular investing, Ethical Biomimicry Finance® or other environmental and humanitarian standards and metrics. We also include community development organizations, NGOs and others directly working in green finance or investing.

The plethora of community development financial institutions (CDFIs) and cooperatives around the world which provide financial services are not listed individually here. For more information about CDFIs, visit the CDFI Coalition at www.cdfi.org. For more information on cooperatives, visit the UN Cooperatives Social Policy and Development Division at undesadspd.org/cooperatives.aspx.

The majority of the listings in the Ethical Money Directory are of asset managers. Many are members, as are we, of the Network for Sustainable Financial Markets (NSFM), and the UN Principles of Responsible Investing, as well as Ceres, the UN Inquiry on Designing Financial Systems for Sustainability to which we contributed the paper "[Perspectives on Reforming Electronic Markets and Trading](#)", SRI Connect and "[FINTECH: Good and Bad News for Sustainable Finance](#)".

The Ethical Money Directory is organized alphabetically in two broad categories:

General Listing – comprised of those companies and organizations directly known to Ethical Markets principals, researchers and advisors or provided by colleague organizations such as SVN and Investors Circle.

Special Listing – comprised of companies involved with green finance and investing which are not directly known to us at Ethical Markets but are Certified B Corporations, as are we.

Where a B Corp is known to us, it appears in General Listing with **B Corp** noted at the end.

For uniformity and to avoid the appearance of favoritism, all information is provided free and without embellishment from Ethical Markets. Each free entry lists, at most, the company or organization name, a brief tagline or description *provided by the company*, principal contacts and their positions, address, phone, email and website link.

We welcome and hope for many additions to the Ethical Money Directory in the future.

General Listing

Asset Managers, Investment Advisors & Organizations
